LAB DISPOSAL BEST PRACTICES

Where do I dispose of my waste?

- Is it contaminated by hazardous, biological, or otherwise dangerous substances?
  - YES: Refer to your lab's procedure for disposing of hazardous waste.
  - NO: Is the waste made of paper, cardboard, hard plastic, or metal?
    - YES: Is the waste made only of glass?
      - YES: Is the glass broken?
        - YES: Dispose of this in your receptacle for broken glass.
        - NO: Dispose of this in your nearest clear-lined landfill bin.
      - NO: Is it batteries, bulbs, or other electronics?
        - YES: Refer to your lab's procedure for disposing of hazardous waste.
        - NO: Is the glass object a reagent bottle?
          - YES: This item must be triple rinsed, and its label must be fully defaced.
          - NO: Recycle in a blue bag-lined recycling bin at the corridor waste station.

Please refer to our e-cycling page. To have this item collected, submit a ticket via Facilities Self-Service (FSS).
